📑 Projects

Medician, *UNSW CSESoc Project Competition 2021* 🔗   Aug 2021 – Sep 2021
Medician is a cross-platform mobile app for health tracking. It let users record details about their symptoms and set notifications for medical and fitness routines. Available on App Store.
(React Native, TypeScript)

Footsteps, *UNSW CSE 24H Hackathon 2021*   Jul 2021
Footsteps aims to link a student's schooling experience with relevant industry mentors who will guide them through their studies and decide on future career choices. A prototype for pitching.
(React Native)
